EKRAJ NARANG

CUSTOMER SUPPORT REPRESENTATIVE

Toronto, ON | 289-968-6865 | ekraj.1503@icloud.com | linkedin.com/in/ekraj-n-079 077 340

PROFESSIONAL SUMMARY

Customer support and technical QA professional experienced in resolving questions across phone, live chat and email, documenting cases in Salesforce and identifying reproducible product defects. Combines empathetic case ownership with hands-on experience in digital products, creative workflows, UI and structured bug reporting.

CORE SKILLS

Live chat and email support | Technical troubleshooting | Case ownership | Bug reproduction and escalation | Salesforce | Intercom | Jira | YouTrack | Sentry | OBS | Help content | Billing and subscription support | AI productivity tools | UI and digital media | Remote collaboration

PROFESSIONAL EXPERIENCE

Sales Advisor | Avello - TELUS Mobility Account | Burlington, ON | Jul 2026 - Sep 2026

- Supported customers across phone, live chat and email, using TELUS Biz Connect for communication and Salesforce for order processing and case documentation.
- Retained an at-risk customer after an account handoff by rebuilding rapport, clarifying concerns and providing reliable follow-up through resolution.
- Handled approximately 10 customer cases per week while maintaining accurate records and explaining products and next steps clearly.

Line and Prep Cook | Boston Pizza | St. Catharines, ON | Nov 2024 - Aug 2026

- Delivered dependable guest-focused service in a seven-person kitchen while balancing competing priorities during high-volume shifts.
- Helped oversee close to 300 orders during a typical rush and supported a peak day of approximately 750 orders across 14 hours.

Cashier and Customer Service Team Member | McDonald's | St. Catharines, ON | Jun 2023 - Dec 2023

- Resolved guest concerns professionally, processed transactions accurately and supported smooth service during busy periods.

TECHNICAL AND QA EXPERIENCE

QA Tester | Spectre Divide - Paid Studio Engagement | Remote | Project-based

- Reported approximately 23 reproducible bugs with step-by-step evidence using Jira, YouTrack, Sentry, OBS, BugNet and Marker.io.
- Tested on PC and PlayStation 5, documenting symptoms clearly and escalating defects so technical teams could reproduce them.

Game and Interactive Media Developer | Brock University Capstone Projects | St. Catharines, ON | 2022 - 2026

- Built and tested interactive systems in Unity and Unreal Engine, including UI menus, character movement, shooting and gameplay meters.
- Created and optimized 3D assets and collaborated with multidisciplinary teams using structured feedback and version-control workflows.

EDUCATION AND CERTIFICATION

Bachelor of Arts, Interactive Arts and Science | Brock University | Graduated June 2026
